

SIÂN

Siân plays a spectrum of music based on the UK sounds of early dance music, following the path of the hardcore continuum with wisdom and a special grace behind the decks. From African blends to Acid and Elektro, she has the natural ability to satisfy listeners with her diverse and original selection

In 2017 Siân founded the project **Portal Radio**, a small internet radio station/physical space in the heart of Porto where she creates the musical and artistic programming - giving an alternative platform to both local and international artists
